

Elementary Education

Tutor Pace Learning Centre (TPLC) is the most looked upon online tutoring website that offers excellent internet-based tutoring services for elementary education. We offer e- tutoring in an array of subjects that include basic math, reading, writing, science, and social science along with helping students in preparing for state test. Our team includes tutors that understand tender age of kids and teach them according to their level of understanding. Our tutors are truly professional, having years of experience in teaching at various renowned institutions. We offer teaching programs that not only help in improving student's knowledge but also his all round personality. Our educational program will make your kids independent and successful in academic front.

Our personalized approach will help in growing your child's confidence and building strong base of education at the basic level. At TPLC, we create an individual study plan for every kid after assessing his learning ability and teach him according to it. This will help your child in building right skills and habits that will make him a better student. We impart science education with practical examples and diagrams that helps students to understand the concepts easily. At reading and writing, we give emphasis on flow, fluency, grammar, and vocabulary. After associating with TLPC, you will find that your child have become smarter and confident at studies.
