

## **Dynastar Sultan 80**

Dynastar Sultan 80 is a revolutionary product designed to make skiing as easy as it can be. Perfect for lighter skiers, the equipment is quite user friendly and allows the skier to easily start a turn and control the ski throughout. Dynastar Sultan 80 is made using Autodrive technology and has a deep V tip along with lightweight design, making it suitable for groomed runs. A wider platform and broad edges enable smoother ride edge to edge. The equipment is perfect for skiers who are advanced in their skill and spend most of their time on-trail.
